## [Grand Knight's Report](#)

IRS Form 990-N EZ, which is required for all non-profit organizations, was filed during January. Plus, the semi-annual audit, due February 15th, has been made out and was completed after the pancake breakfast. And finally, the Annual Survey of Fraternal Activities was completed well before schedule. Nice job by all members.

OK. All the required forms have been taken care of and that freed us all for the first pancake breakfast of the year. The turnout was not as many as we would have liked to have had; however, the important thing is that we served 44 people with the help of so many Council members, wives and friends helping us out. Thank you all so much for all that you do for and in the name of Knights of Columbus.

As your District Deputy, I had the pleasure of attending the State Council's winter meeting this year. One of the items noted was that overall, the state brought in 100 new members this current Fraternal Year and only had a loss of 3. That is quite impressive. Another item brought up was the idea of having a state wide prayer group. More details will be forthcoming on how it will work; however, I believe that it will involve our Councils working with the parish priest/Council Chaplain to put it all together.

For your safety and well being, the following article is taken from the Oregon State Council information:

The Oregon State Police (OSP) is excited to launch \*OSP (star OSP). This is a fast & easy way for you to contact the Oregon State Police's dispatch for a non-emergency from your mobile phone.

\*OSP (\*677) is a mobile phone direct call number established to provide the public with a quick, easy to remember number to use for non-emergency reporting of traffic safety, highway hazards and any obstructions, minor crashes, and requests for assistance. \*OSP is not an emergency number and 9-1-1 still remains the emergency true number to call for an emergency. \*OSP rings directly into the State Police Dispatch center and is it will be answered by a live dispatcher 24 hours a day, 7 days a week.

The Department in collaboration with Oregon Department of Transportation (ODOT) and Oregon's cell phone providers have secured this number to make it easier to contact the OSP for any non-emergency police services and road hazards.

Currently, Verizon, AT&T, Sprint, T-Mobile, and US Cellular have worked with the OSP Department to facilitate this service. It is the Departments goal that, as this program develops, other cell providers will partner with them in this venture to provide access to all cell phone users.

Now that the majority of motorists have cell phones, this easy to remember number will help ensure people have a way to report non-emergency issues directly to OSP. For members of the public who do not have cell phone service, or have providers that do not currently support this access number, they can still dial the Department's toll free phone number 800-452-7888.

\*OSP was established as a way to better serve the public and ensure a fast and easy way to contact OSP for public safety services.
